

Aquarium

(Desk-Top Flashover)

Demonstration unit to demonstrate the various stages – on a small and easily viewable scale – of flue gas combustion (flame jumping, flashover, Backdraught). Is also suitable for demonstrating explosion limits of gas leaks. This unit also has a built in smoke generator.

Casing Material:	Stainless Steel
Glass	6mm Laminated
Mains Laminated:	230V 50/60Hz, Earthed connection essential!
Max. Power Consumption:	3A
Fuel:	Propane
Operating Pressure:	30mbar
Max. Inlet Pressure:	1.5 bar
Operating Temperature:	+5C/+30C
Dimensions:	79 x 51 x 72cm
Weight:	Appx. 47Kg
